

SBA Lab Activity 5.0.3.1: Implementing RIPv2 with CIDR Notation

Topology

Objectives:

1. Develop the physical Topology
2. Compute for Addresses using CIDR Notation: 20.100.192.0/21
3. Prepare all the necessary configuration, initial config, interface config, and protocol config

Rubric for Checking

Topology - 10

Addressing - 20

Initial Config - 15

Interface Config - 15

RIPv2 Protocol - 20

Verification - 20
